ENGINEERING:
1) Transdyn - DYNAC

Mr. Moreau explained to the Board that the Authority uses remote control software to control the toll plazas at the three small bridges during unmanned periods and our traffic control systems at MHB and NBB. The software used for this is DYNAC, a proprietary product of Transdyn, Inc. The system is over five (5) years old and operates on an outdated hardware platform that Hewlett Packard has begun to phase out. Mr. Moreau said that the Authority will need to fully update both the hardware and software platforms in the future if we choose to maintain the system. We are proposing a lower cost alternative in the interim which is to simply replace the old hardware. This lower cost alternative will use new servers purchased off the state contract and cloning the existing software onto the new hardware. Replacing the current seven-year-old servers with new hardware will improve the reliability and should give the Authority another five to seven years of useful life well within cost-benefit parameters for the system. With the addition of the new servers the backup system can be implemented to restore service in a matter of hours and preserve the current operations. Mr. Moreau recommended authorizing a budget of $33,300.00; $25,000.00 for Transdyn and $8,300.00 for the purchase of the servers. Chairman Gerentine called for a motion. On a motion of Commissioner Higgins, seconded by Commissioner Lashua, the following resolution was adopted unanimously:

NEW YORK STATE BRIDGE AUTHORITY
BOARD RESOLUTION

Resolution No.: 014-037
Resolution Date: April 17, 2014

2) Transdyn – System-wide IT Consulting Extension

Mr. Moreau indicated to the Board that in 2010 the Authority advertised for general IT consulting services and selected Transdyn, Inc., awarding them a three (3) year contract, BA-2010-RO-001-ES, with the option of extending the service period for three (3) additional one (1) year terms. While last year’s annual budget was increased due to a number of special projects, Mr. Moreau recommended accepting the option for this year’s additional work at the original budget of $125,000.00 per year. Special projects are now being handled with their own individual budget approvals as demonstrated by the DYNAC proposal put before the Board. Mr. Moreau added that the Authority has been pleased with Transdyn’s level of service and responsiveness and would like to execute the option to extend the service agreement. Chairman Gerentine called for a motion. On a motion of Commissioner Higgins, seconded by Commissioner Dressel, the following resolution was adopted unanimously:

2) Fourth Quarter 2013 – Quarterly Operations Report

Mr. Bushek reported to the Board that traffic increased 0.06% for 2013 as a net result of an increase in passenger (0.11%) and decreased in commercial volume (-0.65%). Revenue increased 1.98% due primarily to the toll schedule revision implemented January 30, 2012 being in place for a full twelve months in 2013. Operating expenses increased $1,200,000, a net result of several factors. Operating expenses were budgeted at $30.3 million for 2013, which includes $2.3 million for accrual post-employment benefits and $1.6 million for depreciation of the Walkway over the Hudson, both booked at year end. Note that the actuary computed post-employment benefit expense for 2013 was $2.0 million. Overall, as of 12/31, $29.3 million was spent. Budgeted capital improvement costs for the year are $55 million; the revised capital plan approved by the Board in September 2013 was $26.5 million. As of year-end, $34.4 million has been spent primarily as a result of the acceleration of projects, Newburgh-Beacon Bridge Painting, ahead of the original schedule in the capital program. Also noted was the correction to the Agenda as the report should have been listed as the Fourth Quarter of 2013. No action was required by the Board.
3) Accident Review Committee – First Quarter 2014

Mr. Bushek reported there were 60 accidents on Authority facilities in the first quarter of 2014 compared with 33 the previous year. During this period there were 7 accidents involving Authority personnel, first quarter 2013 had 1 accident involving Authority personnel. No action required by the Board.

HUMAN RESOURCES:
1) Contract for Occupational Health Services for 2014-2015

Ms. Hritz-Seifts reported to the Board that the service agreement between The WorkPlace and NYSBA expired on December 31, 2013. After extending the agreement with The WorkPlace on a month-to-month basis, the Authority then issued a Request for Proposals for services to be provided for the period beginning May 1, 2014 until April 30, 2015. Two (2) proposals were received in response to this request. Ms. Hritz-Seifts recommended an approval to award the contract to The WorkPlace for a period of one year, with an option that allows the parties to extend the agreement for three (3) additional one-year renewal periods. Ms. Hritz-Seifts asked the Board to authorize expenditures to The WorkPlace for May 1, 2014 through March 31, 2015, not-to-exceed $35,000, so that the Authority may continue to provide these services for the health, safety and welfare of NYSBA’s employees.
