Mr. Russo explained to the Board that the E-ZPass Interagency Group (IAG) is currently drafting documents and seeking the approval of its members to create a service corporation (a parallel entity) for limited administrative purposes. The IAG under its existing Operating Agreement is essentially a cooperative association of toll providers who employ a shared electronic toll collection technology under the name E-ZPass. The IAG members agree to certain operational policies and reciprocal protocols for processing transactions to provide as near a seamless experience to customers as possible. In its current form, the IAG does not have any authority to enter into contracts, hire and host staff, to sue or be sued, etc. The EMC is poised to approve the draft documents necessary to create the service corporation that have been reviewed by both the EMC and Legal Committees and to direct IAG counsel to take the steps necessary to make application to create the service corporation. Accordingly, Mr. Russo recommended that the Authority Board review the accompanying items prepared by its legal counsel and approve the attached resolution to give the Authority's consent to the other IAG members for the creation of the service corporation.
